Home of the Satellites

Dear Parents/ Guardians,

5/26/17

Research has shown when students are adequately prepared for their school day, the more successful they will become. While it is extremely important that your child get a good night's rest and a hearty breakfast, it is equally important that they have the right materials and tools they need to be successful in the classroom. Year after year we have faced many challenges with parents having difficulties finding the right supplies that we recommend. There are specific brands that we use which have been tried and tested in the classroom. We know the cost of supplies can add up quickly and this year we want to help you maximize your money and get the most out of your dollar.

Therefore, we are proposing a flat rate supply fee of \$40 for this upcoming school year. Each student will be given a receipt upon cash payment (PTAC does not accept checks) and the money collected will be deposited in our PTAC account. We can then pick out the supplies we need and PTAC will give us a purchase order to get our supplies. Please note this supply fee does not include a backpack, lunch pail, or any supplies your child may need for Chamorro class. If you choose not to pay a supply fee, you can pick up a supply list from your child's teacher in the main office, or visit our school website and look under the name of your child's teacher. Please note that each teacher has a different supply list.

Thank- you for your time and attention!
